

Tossing Scripture Frisbee's

This frisbee lesson is easy AND great for VBS or any other time of year. The lesson is that throwing a frisbee is the perfect preparation for sharing scripture. Both require skill, practice and joy in the spiritual exercise. You pick your target (friend) WAIT until you have their attention, and then do your best to throw it in such a way that it will be easy for your friend to catch.

The second lesson is that a frisbee flies because the air holds it up. Scriptures fly too but only when we trust God with all our hearts. In common language: "Believe and receive". May your frisbees fly and your scriptures hold you up when you have no visible means of support.

MATERIALS: All you need are a package of paper plates (the **HEAVY** paper ones fly the best) scissors, scotch tape or glue and enough copies of our POCKET SCRIPTURE pages to go around OR use a magic marker OR get a copy of our master CD with preprinted inserts to glue to the face or back of your frisbee. This whole thing is perfect for VBS. Use one scripture per frisbee or use hundreds. For even more fun get out the magic markers and and Color away. Teachers who have little patience with glue and tape can copy some of our preprinted inserts onto self adhesive Avery labels. Just ask for the 8 ½ by 11 full page labels. Most copy centers have these labels on hand and will do the work for you.

As with ALL bible lessons the secret is repetition and perseverance. You might want to keep the Frisbees in your classroom for two-three weeks, at least long enough to ask who has shared a scripture with a friend and who has not. Like Frisbee throwing scripture sharing takes practice. For more ideas on helping children develop a HABIT of sharing God's word visit our newest website www.homewordnow.com and click on Coloring pages then greeting cards.
