

Project Pray 2009

Take this request to your churches Prayer Chain???

The Doctors say that my Pastors Wife, Pauline Scott still has cancer of the spine and that it is still terminal...BUT...she is FEELING much MUCH better and would like to thank every one who has prayed. Her husband and son, our Pastor and youth Pastor, are still believing for healing and hope others will join them.

For my Aunt Olive Weisheim: She has had a recurring drug resistant staph infection (mersa) for nearly a year. The specialist says it is on her skin and hair and that she reinfects herself. Just when they think they have gotten it all it comes back in a different part of her body. She has always been a very thin woman but over the last year has lost over 30 pounds. Hope you might pray that God restores her appetite and helps her gain back all thirty of those pounds...she needs them very much. The medicines she has been taking make it difficult for her to eat.

Pray for our dream for 2010..."Pocket Scriptures": that every child in the world starts out the day with a Bible Verse in his or her pocket. We are hoping for an interview with Eric and JJ on American Family Radio. We have also sent articles to over 50 Christian Magazines. Pray that a few at least print our article? Pray especially that as many families and churches as possible sign up to receive our free weekly bulletin inserts and forward them to others.

Thank you for praying...Charles White
